**Reminder Notifications .....3**

    Permit expired..... 3

    Permit expiration date approaching..... 3

## Overview

This document lists the available VelocityEHS notification triggers for **Compliance Management**, along with the email content generated for each trigger. Administrators can use this document during notification setup to understand what a given notification will consist of.

Words surrounded by angular brackets (< >) are tags. Tags will be replaced with record-specific content when each notification is generated.

## Immediate Notifications

### Permit renewed

*Sent when a permit gets renewed.*

**Subject:** Permit at <Permit Location> has been renewed
